

I listen to K-Love which is transmitted over FM translators. It is my understanding that the FCC may grant LPFM licenses which might override the translator I use to listen to K-Love. I ask that you be very careful when issuing these licenses so the signal from K-Love will not be overridden. I feel this radio station serves the community well by providing uplifting & encouraging music and other programming. There aren't very many radio stations that one would feel comfortable letting children listen but K-Love is a wonderful exception.

Thank you
Steve Meeks
